Sector: **biotechnology services > biotechnology organizations**

Profile: MABIC is a not-for-profit organization with a mission to provide scientifically accurate and fact-based resources to all stakeholders, and to provide a platform for issues on biotechnology to be discussed. MABIC supports the Government's aspirations in making biotechnology a tool for economic growth.

Services: MABIC's key activities are dissemination of information and conducting outreach programmes to various stakeholder groups to create awareness on biotechnology.

Interests: Regional and international collaborations with like-minded organizations to carry out outreach programmes.
