**Homepage:**  <http://www.proteabio.com/>

**Sector:** biotech supplier > protein mass spectrometry

**Profile:** Protea empowers Life Science Researchers with new products and services that improve the speed, quality and reproducibility of protein mass spectrometry data obtained from their biological samples.

We improve the quality and reproducibility of data obtained by our customers in their laboratories. All our products are tested to assure that they will not interfere with mass spectrometric analytical techniques.

**Services:** Our protein research services afford access to experienced protein mass spectrometrists, a state of the art mass spectrometry facility, combined with our advanced protein sample preparation capabilities.
